# WHY NOSARA

Nosara is one of the world's rare **Blue Zones** where people live longer, healthier, more connected lives.

But what makes it different isn't just the science -

*it's the feeling.*

---

Here, life slows down in the best way. You wake up with the sun, move your body, breathe deeper, and actually feel present again.

*Happy. Whole. You.*

**Morning**  
movement

**Afternoons**  
that feel unhurried

### **Evenings**

Centered around sunset,  
conversation, and connection.

*This is where we come together the way we're meant to -*  
***supportive, grounded, and real.***

# MEET YOUR GUIDE

## Stephanie Disbrow

Founder of The Gypsy Yogi

I'm the founder of The Gypsy Yogi, a Raleigh-based yoga community known for outdoor, strong, athletic flows with a grounded approach to movement, mindset and the study of simple, real-life teachings from the yoga sutras.

With over 17 years of consistent training, I teach outdoor yoga as exactly that- a practice not a performance- focusing on building strength, mobility, and mental clarity.

I've traveled to 37 countries and 43 states, and I know firsthand how powerful it is to get out of your normal environment and into one that actually supports how you want to feel.

The retreat at Nomadic is intentional. Every detail is designed to help you reset, move your body, and get clear again.

I'm excited for us to travel together to Nosara!  
Let's step out of our routine and back into ourselves.

This isn't something you just attend-it's something you'll carry with you long after you leave.
